

# JAZOON07 Call for papers

Jazoon'07 - June 24-28, 2007, Zurich, Switzerland

## Summary and important dates

- > Pre-conference tutorials: Submit your proposal by January 31, 2007.
- > Work-in-progress presentations: Submit a 3 page extended abstract by February 28, 2007.
- > Software demos: Submit your proposal by March 31, 2007

## Conference overview

Jazoon'07, the European Conference on Java™ Technology, brings together experts and professional users of Java and open-source technologies from all over Europe. Featuring a comprehensive range of topics, renowned speakers, a varied program of social and cultural events, parallel exhibition with integrated career platform and optimal logistics, Jazoon provides young professionals and established specialists with a unique live experience.

## Get involved

The Jazoon'07 conference invites you to share your experience and knowledge within the following categories:

### > Peer-refereed talks (30') within the technical program / closed

### > Pre-Conference Tutorials (half-day and full-day)

Tutorials can be proposed for any topic of interest and will be selected by the organizers. Submit your proposal by January 31, 2007. Tutorials with less than 8 registrations will be cancelled (tutorial speakers visit jazoon.com).

### > Work-in-progress presentations (30')

Submit a 3 page extended abstract by February 28, 2007 (accepted authors benefit from 50%-reduced conference fee).

### > Software demos (45')

Submit your proposal by March 31, 2007 (demo slots are free for non-commercial software).

### > Birds-of-a-feather sessions

Submit your topic proposal by April 30, 2007. The conference organizer will try to pool similar or equivalent proposals and invite the proposers to moderate the sessions (BOF sessions can also be proposed ad-hoc during the conference).
